PROFILE

Higher education technology professional with 5+ years in university systems and operations. My practice combines academic workflows, data governance, quality analytics, learning platforms, Google Workspace/AI services and institutional infrastructure, supported by application engineering. Currently pursuing an M.Ed. in ICT for Education. Open to remote higher education technology and EduTech roles or collaborations, including Saudi Arabian, GCC and international organisations.

HIGHER EDUCATION SPECIALISMS

Institutional systems & quality: Requirements analysis, academic/research and lecturer-service workflows, institutional reporting, strategic-plan indicators, formula-based audit scoring and KPI analytics.

Academic data governance: Data quality, integrity, validation, synchronisation of academic records and higher-education regulatory reporting.

Learning technology & AI services: Learning platforms and progress tracking; Google Workspace for Education, institutional access/security, Gemini for Education and NotebookLM administration/adoption support.

UNIVERSITY TECHNOLOGY PRACTICE

IT Directorate - Institutional Systems, Data & Technology

Universitas Muhammadiyah Pekajangan Pekalongan (UMPP) | Jan 2021 - Present

Responsibilities span institutional applications, academic data, collaboration/AI services and IT infrastructure. Translate university requirements into digital workflows and support their data, access and operational environment.

- Academic data governance, validation, synchronisation and regulatory reporting: Jun 2025 - Present.
- Google Workspace for Education / AI administration and institutional access: Jun 2026 - Present.
- Systems Analyst & Full-Stack Developer: Jan 2021 - Present; institutional PHP applications, CodeIgniter maintenance and Laravel adoption.

SELECTED INSTITUTIONAL SYSTEMS

SIAMI - Internal Quality Audit & KPI Analytics

Models strategic-plan indicators and formulas into automated audit scoring, KPI analysis, structured reports, performance summaries and radar/spider charts. siami.umpp.ac.id

Corner Experts - Digital Learning & Expert Marketplace

Course and lesson management, learning progress, roles, reports and balance-related workflows. Implemented with Laravel 12, React/Inertia.js, TypeScript, Vite and SSR.

Research Management & Lecturer Services

Institutional applications that turn manual research administration, lecturer services and data processing into structured digital workflows with role-based access, validation, REST APIs and reporting.

TRI JAYA PRASETYA

Engineering foundation, education & supporting experience

ENGINEERING & OPERATIONAL FOUNDATION

Application engineering: PHP/Laravel, CodeIgniter 3/4, React/Inertia.js, TypeScript, JavaScript, REST APIs, MySQL/PostgreSQL, Git/GitHub; React Native, Flutter and Firebase experience.

Server & infrastructure (Sep 2022 - Present): Linux servers, PHP runtimes, Apache/Nginx, databases, DNS, SSL/TLS, access controls, monitoring and Synology NAS backup workflows.

Network & infrastructure (Jan 2023 - Present): MikroTik routing, bandwidth, firewall/NAT policies, public IP integration and Ubiquiti UniFi wireless networking.

End-user computing / AV & streaming (Oct 2021 - Present): Workstation evaluation, software deployment, technical support, hybrid events and OBS Studio streaming.

ADDITIONAL EXPERIENCE

Founder

EduTech Area | Aug 2026 - Present

Initiative to support modern, integrated and sustainable digital ecosystems for educational institutions through practical technology services. edutecharea.com

IT Infrastructure & Technical Support

UMPP - Faculty of Health Sciences | Sep 2020 - Oct 2021

Supported computer labs, networks, academic technology, AV and live broadcasts. Maintained infrastructure documentation and evidence for accreditation and institutional reporting.

Earlier experience: Management Quality Control / Co-Founder, StarShare (Mar-May 2018); Web Administrator & SEO Intern, StarShare (Feb-Mar 2018); Network Engineering Intern, Telkom Indonesia (Jun-Aug 2015).

ADDITIONAL PROJECT EXPERIENCE

University/unit websites; language/cooperation management; Baitul Arqom; student affairs, MBKM and library services. Built Mushlihuun with Flutter/Firebase for Quran memorisation monitoring. Android publishing/maintenance includes Kilau Muda Indonesia, Ibnu Abbas Wiradesa, Sipandawa and Thalassemia App. Tabungku covers savings/qard balances, transactions, legacy migration and reporting.

EDUCATION

Master of Education (M.Ed.) candidate - ICT for Education

International Open University | Current - Distance/online

Current CGPA: **3.85 / 4.00**. Focus includes digital learning, learning systems, learning analytics and educational technology.

Bachelor of Informatics Engineering (S.Kom.)

Institut Widya Pratama (IWIMA) | 2016 - 2020

GPA: **3.91 / 4.00** | Cum Laude.

TRAINING & ENGLISH TEST BACKGROUND

Cisco Networking Academy: Introduction to Networks; Routing and Switching Essentials (2017-2018, CCNA 1 & 2 coursework, not CCNA professional certification). BuildWithAngga: Full-Stack Laravel Flutter 2021 (Dec 2023). IDNIC-APJII: cybersecurity, DDoS, information security, internet resources and BGP (Jan 2024). SUHU/TLab: NGFW webinar (Feb 2024).

TOEFL ITP: **440 (2020)**. TOEFL Prediction: **500 (2025)**; a prediction result is listed separately from the ITP result.
