PROFILE

Full-stack developer with 5+ years of professional experience in higher education. Develop and maintain institutional applications using PHP/Laravel, CodeIgniter and React/Inertia.js, supported by experience in system analysis, data reporting, Linux deployment and production troubleshooting. Currently pursuing a Master of Education in ICT for Education. Interested in remote Full-Stack, Laravel Backend and EduTech engineering roles, including Saudi Arabian, GCC and international teams.

TECHNICAL SKILLS

Backend & data: PHP, Laravel, CodeIgniter 3/4, REST APIs, Eloquent ORM, authentication, role-based access, queues, scheduling, MySQL, PostgreSQL.

Frontend: React, Inertia.js, TypeScript, JavaScript, Tailwind CSS, Vite, responsive interfaces, SSR troubleshooting.

Deployment & supporting experience: Linux, Ubuntu/CentOS/Fedora, Nginx/Apache, Git/GitHub, React Native, Flutter, Firebase, Node.js/Express.js, Google Workspace for Education.

CORE PROFESSIONAL EXPERIENCE

Systems Analyst & Full-Stack Developer - IT Directorate

Universitas Muhammadiyah Pekajangan Pekalongan (UMPP) | Jan 2021 - Present

Develop and maintain institutional PHP applications, extending CodeIgniter 3/4 systems and adopting Laravel. Translate institutional requirements into practical application workflows.

- Application analysis, development, validation, integrations, role-based access and maintenance.
- Linux hosting, server administration, database troubleshooting and production support.
- Related responsibilities in academic data governance, networking and institutional access management.

SELECTED DEVELOPMENT PROJECTS

SIAMI - Internal Quality Audit & KPI Analytics

Models strategic-plan indicators and formulas into automated audit scoring, KPI analysis, structured reports, performance summaries and radar/spider charts. siami.umpp.ac.id

Corner Experts - Learning & Expert Marketplace

Laravel 12, React, Inertia.js, TypeScript, Tailwind CSS, Vite and SSR. Covers courses, lessons, learning progress, roles, balances, top-ups, withdrawals, reporting and administration.

Tabungku - Savings & Qard Management

Laravel, React/Inertia.js and MySQL workflows for active and borrowed balances, savings transactions, legacy data migration, filtered reports, charts, printable records and production troubleshooting.

TRI JAYA PRASETYA

Experience, education & supporting credentials
